Comments	y strongly object to this planning application for the Grundon Incinerator. The reasons are (1) The sheer size of the building with the 2 stacks (2) the area of Ford is part of a conservation area with birds, wild nature life and environmental factors (3) The traffic on the local roads is horrific (local roads are not built for this amount of traffic and lorries etc.) will have devastating effects on health and safety of all residents, many of which are elderly (4) the effect on local residents and property will have a devastating effect with dust, fumes and valuation (5) I do not see any reason at all for building large incinerators on semi rural land. (6) I THEREFORE I INSIST THAT THIS PLANNING APPLICATION BE TURNED DOWN IMMEDIATELY.
