Comments	<input type="text" value="I am writing to oppose the construction of an incinerator in Ford on the following grounds: - Damage to the environment. Toxic fumes will damage air quality, - waste incinerators also damage soil and water in the area. - The already heavy traffic on the Ford Road ,especially near the Ford roundabout will be further increased. - The energy produced using these incinerators is expensive. What we need in West Sussex is better recycling and composting facilities, not an incinerator which will create more CO2 gases!"/>
