Comn	ient for planning application wSCC/011/21
Application number	WSCC/011/21
Name	Catherine Perry
Address	2 NORFOLK WING, TORTINGTON MANOR, FORD ROAD, FORD ROAD, ARUNDEL, BN18 0FD
Type of Comment	Objection
Comments	I object to this on the following grounds The impact it will have on the local environment. Incineration is not a good way to generate energy because of its impact on climate change. It harms air quality, emissions include dioxins, NOx and ultrafine particulate matter that can be harmful to health and the natural environment. There is no need for additional incineration sites in West Sussex. An incinerator of this size risks deliverability of one of Arun's key strategic sites for a new settlement of a primary and secondary school with village centre and 1,500 houses. A developement that was supported at a local referendum. Local roads will not be able to accommodate the size and weight of the lorries using said site. The visual impact of the 13 storey high building and the two 28 storey high towers will destroy the one visual gap in development between Bognor and Brighton. It will also affect the South Downs National Park and sites of special scientific interests.
