Comment for planning application wSCC/011/21	
Application number	WSCC/011/21
Name	Andrew Vawer
Address	WANDLEYS CLOSE, 1, WANDLEYS CLOSE, CHICHESTER, PO20 3SH
Type of Comment	Objection
Comments	The site is wholly inappropriate for this facility. Road access is poor - only minor local roads unsuitable for the proposed level of HGV traffic. Conflict with the siting of 1500 homes as per Ford Plan Policy SA1 - pollution, noise, traffic. Conflict with a number of the West Sussex Waste Plan policies including 11, 12b, 19 and objective 14. The view of the smoke stacks and large building interfere with the setting of the South Downs National Park, in conflict with their policies. Conflict with the views policies of Walberton Neighbourhood Plan (VE13) and Clymping Neighbourhood Plan (CPN7) Close proximity to a school is inappropriate for pollution from the site. Risk of fire or chemical spillage close to a housing estate. Sufficient Waste handling capacity within West Sussex is now available through the Horsham facility, so extra capacity is not necessary.
