

# Comment for planning application WSCC/011/21

Application number	WSCC/011/21
Name	Anthony Kettley
Address	FITZALAN MEWS, 20, FITZALAN MEWS, ARUNDEL, BN18 9LF
Type of Comment	Objection
Comments	The development is completely in the wrong place and will destroy the surrounding area. As prevailing winds are south westerly any smoke residue will fall over Arundel and its surroundings. Waste incineration does not support the drive to reduce carbon being released into the atmosphere. Any carbon capture will produce further waste which will require disposing somewhere!
