Comment for planning application WSCC/011/21	
Application number	WSCC/011/21
Name	G Le Fournis
Address	DALLOWAY ROAD, 24, DALLOWAY ROAD, ARUNDEL, BN18 9HW
Type of Comment	Objection
Comments	Local Roads not fit for the inc. in weight, size, no's of HGVs. W.Sussex already has enough incineration sites - more is not compatible with reducing emissions & maintaining quality of air - already being damaged by inc. no. HGV size lorries along this road - especially to recycling unit on Ford airfield - literally non-stop. What about the new settlement planned nearby which would also supply, at last, a local secondary school for Arundel?? The Arun valley will no longer be a rural gap in between all the development from Brighton to Bognor. The 13 storey building will be visible from Chichester - & 2 28 storey towers will complete the carnage being proposed to affect the South Downs National Park;

SSSI's in the area along with the ancient monuments & Grade 1 listed buildings. You may choose to ignore the world climate - (some conference going on?!!) or start small - ie what about the Arun Valley climate...A It will be an ill considered blight on the landscape and environment for the next generation
