Comment for planning application WSCC/011/21

Application number	WSCC/011/21
Name	Carolyn Kenney
Address	ARUN STREET, 4, ARUN STREET, ARUNDEL, BN18 9DL
Type of Comment	Objection
Comments	I wish to register my objection to the proposed incinerator in the Arun Valley. The additional HGV movements will put pressure on Ford Road which has already been identified as a safety concern for pedestrians and cyclists. The local road infrastructure is not suitable for the size and number of vehicles that the proposal would generate. I am concerned at the impact the incinerator would have on air quality and do not believe that appropriate mitigation measures have been proposed. The proposal does not demonstrate a need for additional incineration provision within the area. The proposal will jeopardise delivery of other core uses such as housing and education that have plan support and should be prioritised. The proposal would cause significant harm to the character of the South Downs National Park and Sites of Special Scientific Interest; and have a significant adverse impact on the setting of Scheduled Ancient Monuments and Grade 1 Listed buildings. This significant harm to heritage assets is unacceptable and is not outweighed by any other considerations in relation to the proposal. The collective significant adverse impacts of this proposal are not outweighed by any perceived benefits and the application should therefore be refused.
