## Comment for planning application WSCC/011/21

Application number	WSCC/011/21

Type of Comment	Objection
Comments	It seems unreasonable that these plans are being re-submitted after the hugely negative response last year. Vast increases to traffic from lorries, ruined local landscapes are the least of the issues. Now with the majority of people finally realising the seriousness of climate change, how could we build a building that will only greatly add the the problem? The emissions from this building & process are deeply unneeded now and into the future. J.
