Type of Comment	Objection
Comments	This is not an appropriate location. It is too big. Too close to houses. Not energy efficient and there in opposition to government plans to reduce fossil fuels and carbon productising energy sources. The TWO chimney stacks will be visible for many miles around. The fact that the chimney stack has to be so tall tells you much about the pollutants. This is a rural area with growing family communities. It will ruin the outstanding beauty of the area. Local roads and traffic cannot cope with existing volumes and the high volume of regular lorry loads will add to the congestion and pollution. Our country lanes are dangerous enough for all users without willingly inviting hundreds more each week. This is a fantastic village and this facility is not the right place. Further more we don't need it, there is already one in Horsham and Newhaven. Improve packaging to reduce waste in the first place. Please please please do not grant this monstrosity any permission. It will forever spoil our wonderful village and blight the local countryside. Thanks for listening
