Comment for planning application WSCC/011/21	
Application number	WSCC/011/21
Name	Rosemary Osmon
Address	5 SWANDENE, PAGHAM BOGNOR REGIS, PO21 4UP
Type of Comment	Objection
Comments	At a time when most people are trying to reduce polluting emissions this project could not be worse. It would reduce air quality and badly affect the locality. The buildings are completely out of character for the area and the whole project should never have been considered when we are fighting to sustain our National Parks. To risk the health of the local citizens for something which could be covered by improved recycling, a concept which many local authorities are actively addressing, seems irresponsible in the extreme.
