Comment for planning application WSCC/011/21	
Application number	WSCC/011/21
Name	Sarah Sharp
Address	13 Whyke Lane Chicheester PO19 7UR
Type of Comment	Objection
Comments	I would like to object to the building of an incinerator near Ford/Arundel. The County should be recycling more. Building an incinerator goes against the need to encourage more people to recycle. I am concerned about light and air pollution from this compound. I am concerned about the large number of lorry movements that would clog up local roads and make them less safe for people walking and cycling. I am concerned about the height of the main chimney which would impact on views from the South Downs National Park. I object to this application in light of the probability that pollutants will be damaging to human health in- cluding dioxins, NO2 and ultra fine particulate matter. I believe we should be concentrating on energy from renewable sources eg sun, wind, tide rather than burning waste. We need to invest in improving recycling rates, instead sending valuable recyclable material to an icinerator. The area's tourist economy would be damaged by such a large and unsightly incinerator.
