Comments	I feel strongly about the use of this site for an incinerator. The use of this land would serve the area better if used for housing and expanding the existing community of Yapton and Ford. If granted permission it would spoil one of West Sussex most fantastic views of Arundel Castle and the surrounding area from all directions. Also the traffic, not only to construct this proposal, but to service the building with rubbish would have an appalling effect on the local road network let alone the pollution from heavy lorries and staff working at the site. WSCC should be pushing for more recycling centres not polluting our area any more than it is already. I hope WSSC see common sense over this and not blight this lovely area.
