Collin	ient for planning application wscc/011/21
Application number	WSCC/011/21
Name	Lawrence Beestone
Address	SOUTHDEAN DRIVE, 64, SOUTHDEAN DRIVE, BOGNOR REGIS, PO22 7TB
Type of Comment	Objection
Comments	Incineration is one of the worst ways of generating energy because of effect on climate change. The local roads are already struggling with traffic the could not cope with the size & weight of the HGV movements proposed. There is already a plan to generate green energy from a proposed wind farm. There will be a huge visual impact it will be clearly visible from the South Downs National Park West Sussex already has enough incineration plants with permission to meet its needs
