Comment for planning application WSCC/011/21	
Application number	WSCC/011/21
Name	Felicity Fox
Address	CEDAR DRIVE, 53, CEDAR DRIVE, CHICHESTER, PO19 3EH
Type of Comment	Objection
Comments	I have concerns about the following: Noise, light and air pollution from the incinerator Visual impact of the high building across the area and tall towers which will affect the South Downs National Park and the historical character of Arundel No local need for local incinerators, they harm recycling - The county should be recycling more rubbish and not burning it in incinerators especially given the pressures of climate change Not green energy, it harms the air quality and produces more CO2 than coal and oil generated electricity combined Emissions include dioxins, NO2 and ultra fine particulate matter which is harmful to humans and the natural environment Up to 240 additional HGV movements - 77% increase along Ford Road - I am concerned about traffic and air pollution from that traffic The surrounding road structure is not sustainable to accommodate heavier, larger lorries which will be used when the plant is built This project is out of character and is going to blight the whole of the Arun Valley The environment and health of the surrounding community is at risk Not enough monitoring Not enough enforcement Not enough transparency
