## Comment for planning application WSCC/011/21

Application number	WSCC/011/21
Name	Simon godfrey
Address	SUDLEY GARDENS, 12, SUDLEY GARDENS, BOGNOR REGIS, PO21 1HY
Type of Comment	Support
Comments	I would like to put my support behind this project as this is exactly what is needed in West Sussex. Weather we want it or not a new facility has to be built there is no getting around this. We are producing more rubbish then ever and even are best efforts to recycle are failing by a long way. Currently we can not cope with the rubbish produced now. That is on top of all the extra homes that are being built in the area and surrounding areas I mean where does all that rubbish go??? This proposal must go through the two companies involved are experts in their fields of industry and they have the knowledge and skills to make it run in the best interest of everyone. There has been a lot of scaremongering going on what with social media,false rumours etc all of which are just not true. Which is a real shame as people are being given wrong information. Burying our heads in the sands and saying I don't want it built here build it somewhere else is foolish. Let us use it as an opportunity to make the best we can embracing new and exciting technologies that will make it completely beneficial to everyone and be a major achievement for West Sussex council in acknowledging the need and embracing it. Just a final note it will require more jobs to help build and run and maintain the premises and in turn will boost the economy which surely can not be a bad thing. Please give your approval to this development it is what is needed.
