Type of Comment	Objection
Comments	* I am concerned about air pollution from the incinerator which will cover 27 acres and will belch fumes into the atmosphere * No local need for local incinerators, they harm recycling - The county should be recycling more rubbish and not burning it in incinerators especially given the pressures of climate change * Not green energy, it harms the air quality and produces more CO2 than coal and oil generated electricity combined * Emissions include dioxins, NO2 and ultra fine particulate matter which is harmful to humans and the natural environment * Up to 240 additional HGV movements - 77% increase along Ford Road - so add concerns about traffic and air pollution from that traffic * The environment and health of the surrounding community is at risk
