Comment for planning application wscc/011/21	
Application number	WSCC/011/21
Name	Daniel Hughes
Address	SUSSEX STREET, 7, SUSSEX STREET, LITTLEHAMPTON, BN17 6JD
Type of Comment	Objection
Comments	I object to this application based on the fact the transport effects are based on outdated data. Whilst acknowledging that Covid-19 prevented up to date representative numbers being researched, traffic volume in the area of Ford Lane has been getting significantly worse even since 2018 when the data that is being used for this application was collected. It is therefore totally unacceptable to use out of date data. I also don't understand how lorry drivers will be force to only use the southern access from the (already busy) A259. Ford Road is overly busy both at the southern and northern ends. Heavy vehicle traffic causes damage to the road surfaces which takes months to be (poorly) repaired and makes the roads dangerous for other users such as smaller cars and cyclists.
