Comm	nent for planning application wscc/011/21
Application number	WSCC/011/21
Name	Samantha Allan
Address	OAK TREE LANE, 27, OAK TREE LANE, CHICHESTER, PO20 3GU
Type of Comment	Objection
Comments	I wish to object to WSCC/011/21, planning permission. The visual impact of the building will affect the South Downs national park, ancient monuments and grade 1 listed buildings and sites of special interest. An incinerator this size risks the deliverability of Arun DC strategies sites of a new settlement of primary and secondary schools with village centre and 1500 houses. There is no local need for more incinerators. WS already has enough incineration sites. The incinerator is seen as a barrier to recycling. Incineration is not green and will harm air quality for both humans and the natural environment. Our local village roads cannot cope at the moment with the big lorries and hgvs that we already have and this would make the situation impossible.
