Comments	Visual Impact- this will have significant detrimental impact on the South Downs National Park, schedule ancient monuments, grade 1 listed buildings and Sites of Special Scientific Interests It is incompatible with key strategic plans for a new settlement that was supported by a local referendum Highly detrimental impact on air quality which is of major concern to me and my wife as we both have underlying respiratory conditions this is significantly incompatible with modern society's move towards green energy and waste management The local roads will not be able to cope with the massive increase in volume of large HGV movements being proposed
