Comn	nent for planning application WSCC/011/21
Application number	WSCC/011/21
Name	Jack Langley
Address	HIGH TREES, 17, HIGH TREES, HAYWARDS HEATH, RH16 3PL
Type of Comment	Objection
Comments	I am extremely concerned about the additional fumes and ventilation of burnt materials, which are likely to be hazardous and add additional CO2 and NO2 to the atmosphere especially so close to the south downs. The focus should be on recycling more waste not burning the most harmful types and pumping them into the air. Without sufficient monitoring in the area the harm done could be immeasurable.
