Type of Comment	Objection
Comments	I would like to register my objection to this planning application. There are many reasons why I am objecting to this development and the following are an example; The visual impact would be catastrophic and a complete carbuncle on the Arun Valley landscape, obliterating the visual gap in development between Bognor and Brighton. The impact on local roads will be formidable as they cannot cope with current volume of traffic now. A 77% increase will be intolerable with no possible future development of road structure options available. Air quality will be significantly impacted locally to the development and much wider afield in surrounding areas as far as Arundel, Lyminster, Wick and Chichester. An increase in heavy lorry movement potentially causes issues with safety to the Ford level crossing. Lyminster level crossing is an example where lorries regularly collide with the crossing causing damage and delays and this should be taken into consideration when considering this application as not all lorries will go via the A259.
