Comm	nent for planning application wSCC/011/21
Application number	WSCC/011/21
Name	Sarah Slight
Address	TEST ROAD, 18, TEST ROAD, LANCING, BN15 0EH
Type of Comment	Objection
Comments	I object to: * the levels of air pollution from the incinerator which will cover 27 acres and produce more CO2 than coal and oil generated electricity combined * emissions include dioxins, NO2 and ultra fine particulate matter which is harmful to humans and the natural environment * the visual impact the incinerator will have within the South Downs National Park * given the pressures of climate change, we should not be burning rubbish but concentrating our efforts on recycling * The surrounding road structure is not sustainable to accommodate heavier, larger lorries which will be used when the plant is built - Up to 240 additional HGV movements - 77% increase along Ford Road - bringing about a significant increase in traffic and air pollution
