Comments	Traffic Impact/ road access. It is a struggle to get out of Horsemere Green Lane (joining Ford Road/ Church Lane during rush hour now, let alone with hundreds of lorries Emissions! You are willing to put local residents around hazardous emissions! Visual impact as the structure is huge! Nobody wants to see an unnecessary waste incinerator from beautiful locations in the area. It is also in close proximity to housing and future developments! ITS NOT EVEN WEST SUSSEX' WASTE!!!
