Type of Comment	Objection
Comments	Here are just some of them - Noise, light and air pollution from the incinerator which will cover 27 acres and will spew fumes into the atmosphere; Visual impact of the high building across the area and tall towers will visually impact affect the South Downs National Park and the historical character of Arundel No local need for local incinerators, they harm recycling - The county should be recycling more rubbish and not burning it in incinerators especially given the pressures of climate change Not green energy, it harms the air quality and produces more CO2 than coal and oil generated electricity

combined Emissions include dioxins, NO2 and ultra fine particulate matter which is harmful to humans and the natural environment Huge increase in HGV movements - especially along Ford Road - equals additional concerns about traffic and air pollution from that traffic The surrounding road structure is not sustainable to accommodate heavier, larger lorries which will be used when the plant is built This project is out of character and is going to blight the whole of the Arun Valley The environment and
