Comment for planning application WSCC/011/21	
Application number	WSCC/011/21
Name	Carolyn Liedtke
Address	THE COTTAGE, FORD LANE, FORD LANE, ARUNDEL, BN18 0DE
Type of Comment	Objection
Comments	The proposed incinerator is a ridiculous idea, with all the new housing planned, including schools, it cannot be deemed compatible. The local roads cannot cope with the volume and weight of HGVs involved, arriving every 5 minutes all day long. The claim of keeping hatches to contain emissions closed most of the time is incorrect with the constant deliveries proposed. West Sussex already has enough incineration sites with permission to meet it's needs. Incineration is a barrier to the circular economy. This is not Green Energy, it harms air quality. Incineration is one of the worst ways of generating energy, because of it's effect on Climate Change. Emissions include dioxins, NOx and ultra fine particle matter that can be harmful to both human health and the natural environment. There is not enough monitoring, enforcement and traransparency. The size of the building will have a strong visual impact on the South Downs National Park, Ancient Monuments, Grade 1 listed buildings, and Sites of Special Scientific Interests.
