| Type of<br>Comment | Objection   |
| Comments           | I wish to object to the proposed incinerator due to the close proximity to residential properties both existing and planned. The emissions from this must have a detrimental affect on the air quality in the immediate area. The HGV movements caused will have a detrimental affect on local roads. The visibility of the proposed buildings would blot the views from the South Downs National Park and nearby villages. The burning of waste contributes to global warming due to the emission of green house gasses. |
