Comments	I object to the incinerator proposal on several grounds. Incineration harms recycling rates, encourages lorry journeys to bring materials to the facility, causes unknown air pollution hazards, noise pollution to surrounding residents, and changes a rural landscape into an industrial one. Incineration is not the answer to the over production of everything. Recycling needs to be dramatically scaled up, a bottle deposit scheme would encourage reuse, and many items thrown away could be repurposed. The incinerator proposal is anti social.
