Comments	I am strongly opposed to the building of this incinerator as I feel the area is already under strain of many new build developments. The current infrastructure cannot cope with the heavy load of heavy goods vehicles already using our lanes. This poses a risk to our children, not only from a traffic perspective, but also from a pollution perspective. There are fewer and fewer areas for our diminishing wildlife to take refuge as well. The chimneys are so high, they would make such an impact on the landscape in a rural area that is already shrinking.
