Comment for planning application WSCC/011/21

Application number	WSCC/011/21
Name	Joanna Wyatt
Address	LULWORTH, SHRIPNEY LANE, SHRIPNEY LANE, BOGNOR REGIS, PO22 9NU
Type of Comment	Objection
Comments	I wish to object to the above planning application to build an incinerator at Ford. This will be an unsuitable facility in the wrong place. In fact, the incinerator, planning for which which has been passed, at Horsham will be able to process the waste for Sussex. An additional facility is not needed at Ford. Waste from far and wide could end up being brought in and dumped here. That would be wholly inappropriate. I live close by-to the East of the proposed site and although we often have a SW wind direction, we are on a flat plain and in a windy location. We often have strong E, SE, and NE winds which will extend the plume and its heavy metal pollutants to fall upon residential areas and food producing farmland. The beaches of the local coastal area will also be affected and it will threaten the holiday tourist trade which is a major part of the local economy. This current planning application conflicts with a number of important, local and national, planning restrictions. Really, I do feel strongly that it is the job of the Local Planning Inspectors to refer to and enforce planning restrictions. Please see references to these in the attached documents submitted by Walberton Parish Council. I have also signed and handed in the pamphlet of objection prepared by Clymping Village Residents' Group.
