Comment for planning application WSCC/011/21	
Application number	WSCC/011/21
Name	david culver
Address	TILE BARN LANE, 11, TILE BARN LANE, CHICHESTER, PO20 7JF
Type of Comment	Objection
Comments	My objection is that this is not the long term future. It is not sustainable to emit CO2 from the combustion of waste. Given the timescales by which the country has to reach carbon neutral this plant will be obsolete long before it is worn out. This investment in a dead end process is wasted time, money and resource. Better to direct efforts into increasing recycling and reducing waste.
