## Comment for planning application WSCC/011/21

Application number	WSCC/011/21
Name	Malcolm Peter Fraser
Address	BARNHAM ROAD, 89, BARNHAM ROAD, BOGNOR REGIS, PO22 0EQ
Type of Comment	Objection
Comments	Rather than submit a lengthy objection directly, I'd simply like to echo what Trevor Ford has submitted as his objection. He has gone to great lengths to clearly cover the relevant issues as to why this development of an incineration plant at Ford MUST NOT be allowed. The proposed development flies in the face of the policies the government is pursuing to reduce the UK's carbon emissions. Recent news items have covered the massive potential for the use of recycled plastic as a road surfacing material in combination with tarmac. Far better to use this approach than burning the plastic. In closing, I'd like to repeat the final paragraph of Trevor's objection which says: Prime Minister Boris Johnson said: "We've made great strides towards our net zero target over the last year, but it's more important than ever that we keep up the pace of change to fuel a green, sustainable recovery as we rebuild from the pandemic. "The UK now has a huge opportunity to cement its place at the vanguard of green innovation, setting an example worldwide while growing the economy and creating new jobs. Now an announcement has been made (April 2021) for a more urgent reduction in carbon emissions by the Prime Minister, this site will greatly increase carbon pollution. I also STRONGLY object to the planning application.
