Comment for planning application WSCC/011/21

Application number	WSCC/011/21
Name	Adam Barker
Address	BROADWORTH COTTAGE, SCHOOL LANE, SCHOOL LANE, CHICHESTER, PO20 3UU
Type of Comment	Objection
Comments	I have concerns about noise, light and air pollution from the incinerator which will cover 27 acres and will belch fumes into the atmosphere There will be a visual impact of the high building across the area and tall towers will visually impact affect the South Downs National Park and the historical character of Arundel There is no local need for local incinerators, they harm recycling - The county should be recycling more rubbish and not burning it in incinerators especially given the pressures of climate change Not green energy, it harms the air quality and produces more CO2 than coal and oil generated electricity combined Emissions include dioxins, NO2 and ultra fine particulate matter which is harmful to humans and the natural environment There will be up to 240 additional HGV movements - 77% increase along Ford Road - so I am concerned about the impact on traffic and air pollution The surrounding road structure is not sustainable to accommodate heavier, larger lorries which will be used when the plant is built This project is out of character and is going to blight the whole of the Arun Valley The environment and health of the surrounding community is at risk Not enough monitoring Not enough enforcement Not enough transparency
