Type of Comment	Objection
Comments	Incinerators have no place in a world which must reduce carbon emissions. This is contrary to national policy and guidance that the planning system should support the transition to a low carbon future in a changing climate. National Planning Practice Guidance describes the need to address climate change as 'one of the core land use planning principles' that should 'underpin both plan-making and decision-taking'; It could prejudice the delivery of affordable housing on the adjacent site by the Community Land Trus
