Comment for planning application WSCC/011/21	
Application number	WSCC/011/21
Name	Kristy Lascelles
Address	
Type of Comment	Objection
Comments	Incinerators are not an appropriate solution when the world is facing a climate crisis. The focus needs to be on reducing single-use containers, reuse and recycling. Aesthetically this would not fit with surrounding area and there is a strong need to reduce, not add to air pollution, particularly coming out of a pandemic, where adding to the burden of healthcare is also unreasonable.
