Comment for planning application WSCC/011/21

Application number	WSCC/011/21
Name	Lynn Powling
Address	52 The Meadows Walberton
Type of Comment	Objection
Comments	This application is totally unsuitable for this location in terms of:- *Visual impact of an 85m structure in the Arun Valley, close to the South Downs National Park *Close proximity to and detrimental effect on existing and planned housing *The unsuitability of local roads for large numbers of HGV - and the impact this additional heavy traffic would have on air quality and local residents *The impact on air quality of the emissions from the incinerator itself
