Comment for planning application WSCC/011/21	
Application number	WSCC/011/21
Name	Christopher Martin Baldw
Address	PRIORY ROAD, 11, PRIORY ROAD, ARUNDEL, BN18 9EJ
Type of Comment	Objection
Comments	I strongly object to the construction of this waste facility because it will have a serious adverse environmental impact on the local area both directly as a result of its emissions and associated increased road usage by HGVs supporting its operation. This proposed facility is an example of old waste management methods and more modern technologies should be used to deal with waste to assure its viability for the future. In addition the visual impact on an extensive part of the Sussex Coastal Plain will also be negatively affected.
