Comn	nent for planning application wSCC/011/21
Application number	WSCC/011/21
Name	Pamela Huxford
Address	47 Little Paddocks, Ferring, BN12 5NH
Type of Comment	Objection
Comments	The proposed incinerator would be a huge blight on this part of the countryside. The toxins produced by the plant are at odds with the imperative of reducing emissions. This is also a huge health and safety issue and contravenes the local plan for large numbers of houses in the area. The resulting large increase in heavy wagons to the plant. would further increase health hazards and pollution. The huge scale of the proposed plant is totally out of keeping with the area, especially given proximity to the SDNP, and would create unacceptable increase in pollution and road traffic.
