Dear Sir/Madam.

I wish to strongly object to the planning application listed above. I have lived in this area for over 21 years and consider it to be of outstanding beauty. This edifice will completely destroy the aesthetic beauty of the area. Not only that and more importantly, it will be sending out particle emissions which we in the area will have to be breathing in on a daily basis. the prevailing winds will ensure that this happens. We simply do not need this facility, and the present government is at pains to tell us all that these types of incinerators are going to be phased out in favour of more environmentally friendly sources of energy such as wind farms. It is purely greed that drives these huge companies to build these monstrosities on our doorsteps, and only feathers their nests to the cost of our environment , health and the loss of our countryside. Please do not build this facility.

Yours sincerely  
Douglas Hatton  
Resident of Lyminster  
West Sussex.

my email address is.
