Dear Sir/Madam

I totally object to the application to build a huge incinerator at Ford wsc/011/21. The roads round here cannot cope. The narrow ford road is one of the most congested particularly after the bunching affect of the railway crossing at Ford and the future will be much worse with 140 more houses planned in Arundel and apparently 1500 in Ford plus the extra traffic from all the building in Barnham, Yaptonand Littlehampton. Visually of course it will damage one of the most beautiful views from the coast looking up the Arun Valley towards Arundel-its castle and onto the South Downs .

Regards
