

INCINERATOR

FORD AIR FIELD

- Are you against the proposed building of the incinerator on Ford Airfield?
- The building will be seen from many of our properties!

If you are against this, please write your name, house number and any comments you have and pop this back through my door at number 8, today or before noon on Thursday 13th of May.

Due to my situation (being Deaf and other disability challenges), our newly re-elected Councillor will be visiting me at my house on Thursday 13th of May, in the afternoon.

Thank you!

Diana Marangos
8 Wooldridge Walk

*John a Hansen Reed.
(29')*

I don't think we need to have this incinerator or the increase of traffic in the area. I feel the house price will drop and the smell will be ~~in~~ increased.

..... (Continue Over to write more..)

SIGHTS, SOUNDS AND SMELLS

- Noise
- Smells
- Litter
- Increased Vehicle Traffic
- Air Pollution

AIR POLLUTION

Up until now incinerator emissions have been limited by EU standards, which the industry and the UK government has looked to weaken. From next year they will be decided domestically.

HOUSE PRICES

Are you concerned about how this proposed incinerator and it's negative effects might affect house prices?
