OFFICIAL

Dear Sir / Madam,

Thank you for consulting Network Rail on the planning application WSCC/011/21.

Whilst Network Rail do have concerns regarding the traffic issues currently experienced at Ford and Yapton level crossings, the Trip Distribution section within the Transport Assessment states that 100% of LGV/HGV movements will be required by previous planning permission to route south away from the level crossing and that 90% of staff trips will route south away from the level crossing.

As a result, I can confirm that Network Rail have no objections to the proposal.

Kind Regards,

Nick Donoghue
