

INCINERATOR

FORD AIR FIELD

SIGHTS, SOUNDS AND SMELLS

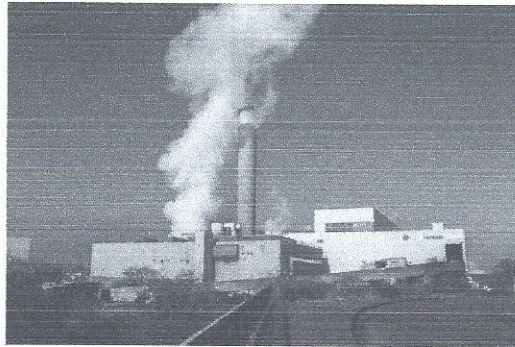

- ✓ Noise
- ✓ Smells
- ✓ Litter
- ✓ Increased Vehicle Traffic
- ✓ Air Pollution

AIR POLLUTION

Up until now incinerator emissions have been limited by EU standards, which the industry and the UK government has looked to weaken. From next year they will be decided domestically.

HOUSE PRICES

Are you concerned about how this proposed incinerator and it's negative effects might affect house prices?

- Are you against the proposed building of the incinerator on Ford Airfield?
- The building will be seen from many of our properties!

If you are against this, please write your name, house number and any comments you have and pop this back through my door at number 8, today or before noon on Thursday 13th of May.

Thank you!

Diana Marangos
8 Wooldridge Walk

Due to my situation (being Deaf and other disability challenges), our newly re-elected Councillor will be visiting me at my house on Thursday 13th of May, in the afternoon.

PAUL & ANGELA GROSVENOR - 4 MANT CLOSE

New houses are springing up on every part of the local area. Would the would be new purchasers be so enthusiastic when they will realise that the above monstrosity might well be at the bottom of their proposed back garden?
Not for us, particularly as we only came last Sept, but it certainly, unfortunately, would happen
