

INCINERATOR

FORD AIR FIELD

- Are you against the proposed building of the incinerator on Ford Airfield?
- The building will be seen from many of our properties!

SIGHTS, SOUNDS AND SMELLS

- Noise
- Smells
- Litter
- Increased Vehicle Traffic
- Air Pollution

AIR POLLUTION

Up until now incinerator emissions have been limited by EU standards, which the industry and the UK government has looked to weaken. From next year they will be decided domestically.

HOUSE PRICES

Are you concerned about how this proposed incinerator and it's negative effects might affect house prices?

If you are against this, please write your name, house number and any comments you have and pop this back through my door at number 8, today or before noon on Thursday 13th of May.

Thank you!

Diana Marangos
8 Wooldridge Walk

MR & MRS PALMER, 3 MANT CLOSE

WE AGREE WITH EVERYTHING UNDER THE
HEADING OF SIGHTS, SOUNDS AND SMELLS THAT
ARE STATED IN THIS LETTER. WHEN WE
MOVED HERE THREE YEARS AGO, THIS
WAS A LOVELY PLACE FOR US TO RETIRE IN.

P.T.O. (Continue Over to write more..)

SINCE THEN HUNDREDS OF HOMES HAVE BEEN AGREED TO BE BUILT AND NOW THIS INCINERATOR. WE NEVER HEAR OF HOW THE INFRASTRUCTURE IS GOING TO BE IMPROVED. YOU CAN VIRTUALLY SAY THAT EVERY NEW HOME WILL BRING AN EXTRA 1.5 CARS TO THE AREA. WHEN WILL THE POWERS THAT BE REALIZE THAT THE AREA OF CHIPPING AND YAPTON WILL NOT BE ABLE TO COPE WITH IT ALL. THE EXTRA TRAFFIC THIS INCINERATOR WILL BRING IS RIDICULOUS. IT DOES NOT MATTER HOW HIGH OR LOW THE CHIMNEY IS BUILT THE AIR POLLUTION WILL STILL SETTLE IN AND AROUND OUR AREA. I OFTEN ASK MYSELF, WOULD THE POWERS THAT BE AGREE TO THIS IF THEY LIVED IN THE AREA.
