Dear Sir/Madam

I am writing to lodge an objection to the proposed building of an incinerator in Ford. The amount of traffic this would generate would be great leading to increased air pollution and noise.

We do not have the road infrastructure to cope with a higher volume of traffic. We will be experiencing a higher volume of traffic in the area as it is with the amount of new houses being built!

The incinerator would be an eyesore for miles around and would destroy the natural habitat of wildlife which is already suffering due to increased building in the local area.

I think too many construction applications have been given the red light over the past few years. The area around Ford, Yapton and Climping is just looking like a building site nowadays with fewer green fields to be seen. There must come a point when enough is enough.

Yours sincerely

Michelle Bradshaw
