Dear Sir/Madam,

I wish to strongly object to the planning application for an incinerator at Ford.

The whole site is totally wrong for this type of operation, being close to residential properties. The access road is only a MINOR road not even classified and completely unsuitable for the 200 + lorries that will use it on a daily basis.

The height of the chimneys mean that they will be visible for miles around and the emissions from them will cause pollution, going against the Governments guidelines.

There are plans to build houses close to this site, no one will buy them and people will be deprived of somewhere to live also Arun council will be deprived of much needed income from council tax.

I realise that I am a very small minnow in a very large pond, but I am glad to be able to air my views.

Thank you

Brian J. Tamplin
