To whom it may concern  
ref WSCC/01121

As residents of Yapton village in a rural setting with schools and a lot of houses established here for many years, plus a lot of new houses under construction and a lot more in the pipeline in this village! Ford, Banham, Littlehampton and all along West Sussex, I wish to object to the Arun Valley Rubbish Incinerator.

The visual impact of the 13 storey high building on the local villages,

South Downs National Park.

We have recently had full praise for Yapton waste management in cooperation with similar Waste collection and recycling at the local tips over 70% @ Littlehampton.  
The emissions of Dioxins, NOx and

ultrafine particulate matter that can be harmful to both human health and the increase of HGV movements on local roads to both health and the natural environment.

People come to the South Coast and the South Downs and surrounding countryside and Historic Arundel, Bichester for their health and well being? Not to see an Incinerator as tall as Bichester Cathedral and breathe in the noxious fumes.

Yours sincerely

[REDACTED] (Mrs)
