Dear Sirs,

Application Number WSCC/011/21.

I refer to the Planning Application above.

I strongly object to any such Building in our village.

The village cannot cope with any more building or buildings!

Certainly not to the extent Grundon are seeking Planning for!

The building of such will be detrimental to the environment, roads, safety, quality of life etc. The village has undergone too much development in my opinion for far too many years!

The roads are not equipped for such a huge change and development.

We will all be suffering immensely!

There are enough lorries thundering down our village roads as it is!

Let alone traffic in general. Also, terrible accidents!

The area will never look the same ever again!

This cannot be allowed. Why do we need such destruction/development!

I strongly lodge my objections herewith.

Yours sincerely,

Marilyn Gasnier.
