| Comments | <input type="text" value="1. Everyone's health will be effected in the surrounding built up areas, which continue to escalate. 2. An awful construction that will be seen for miles around. 3. No need for this facility. 4. Heavy traffic, large lorries that run me off the road at present, roads not built for this. Accidents waiting to happen. Lorries drive at speed regardless of safety. 5. Stop this once and for all, nobody wants this planning to go ahead."/> |
