Comments	<p>I have now been living in Yapton for 6 months and feel more knowledgeable to object to this proposed planning. Firstly the new traffic this will create is not sustainable with the small roads we have going through Yapton. Already if there is an accident or any occurrence out of the normal then there is congestion. On top of that new houses are at present being built so the congestion will get worse during the next 18 months not less. And this new proposed installation will make things impossible. There is bound to be more noise and disturbance to surrounding houses as the heavy traffic will be coming from outside the Arundel area.</p> <p>Lastly the surrounds of Arundel and Yapton has beautiful countryside and nature consequently thrives. To build this eye sore on what is a very pleasant area is absolutely not acceptable. I object in the strongest terms.</p> <p>New roads or widening of roads will be necessary and where is this going to be done? Again more countryside lost to facilitate the use of this installation.</p> <p>Lastly how can you want to build yet more houses in this area and think it i acceptable to go ahead with this.</p>
