

# Comment for planning application WSCC/011/21

Application number	<input type="text" value="WSCC/011/21"/>
Name	<input type="text" value="Simon godfrey"/>
Address	<input type="text" value="SUDLEY GARDENS, 12, SUDLEY GARDENS, BOGNOR REGIS, PO21 1HY"/>
Type of Comment	<input type="text" value="Support"/>
Comments	<input type="text" value="I am completely in support of this application going ahead. The council should also be in favour of this as this is exactly what the area is in need of. I know the idea of rubbish is not the best thing to talk about and no one wants to but the truth of the matter is every single person produces it and getting rid of the rubbish in the correct way should be a priority and this scheme would make this possible. The company's involved are experts in their field and their expertise is invaluable they would produce and provide a service second to none. The site is perfectly situated already on a concrete structure so absolutely no need to damage any wildlife or surrounding nature as the area is already covered in concrete and has been for many years. The impact on the surrounding area would be minimal I believe a traffic scheme would be perfect for directing the flow of traffic entering and leaving the site. This site is a win win for the council and residents and should be given the 100% it deserves"/>
